

# ADMIN UI SCREENSHOTS

## INTRODUCTION

A simple responsive Admin UI is created by using ReactJS. This interface is for admin which has many features like edit users, delete users, search by any properties (name, role and email), delete multiple selected users and pagination.

## HOW TO USE THIS APPLICATION

- For installing all dependencies  
# npm install
- Run the app  
# npm start
- Launches the test runner in the interactive watch mode  
# npm test
- Build the app for production to the `build` folder  
# npm build

## ADMIN UI SCREENSHOTS

### 1. ADMIN UI

The screenshot displays a web application running on localhost:3000. It features a search bar at the top with the placeholder text "Search by name, email or role". Below the search bar is a table with the following columns: Name, Email, Role, and Actions. The table contains 10 rows of user data. The first row is "Arvind Kumar" with role "admin", which is currently selected. The second row, "Caterina Binotto", is checked with a blue checkbox. The Actions column for each row contains icons for edit (pencil), delete (trash), and a bulk delete icon (X) for the selected row. At the bottom left, there is a red button labeled "Delete Selected". At the bottom right, there is a pagination control with a "Previous" button, a series of numbered links (1, 2, 3, 4, 5), and a "Next" button. The number 1 is highlighted in blue. Above the pagination links, there is a text prompt: "Activate Windows. Go to Settings to activate Windows."
